

EXPERIENCE

Product Designer

Stage TEN

May 2022 - Present | Toronto, ON

Redesigned the software interface and developed a comprehensive design system, improving user experience across desktop and mobile platforms. Introduced design tokens to streamline collaboration with the development team. Conducted internal research, such as surveys and interviews, to drive design decisions and inform design improvements. Currently refining and expanding the design system while collaborating with developers to enhance product features and functionality.

Web Designer Intern

Purplely

June 2021 - Aug 2021 | Remote

Developed pixel-perfect high-fi mockups for an accessible platform to increase voter turnout in local elections. Collaborated with a team of 3 developers to ensure successful design handoff and implementation of responsive, functional websites.

Web and Visual Designer Intern

We Red Bridge

Sep 2020 - Dec 2020 | Shanghai, China

Worked with the marketing team to develop design concepts and site mockups for marketing projects. Created web graphics and illustrations using Adobe Suite alongside professional graphic and web designers.
